👤 PROFILE

I am a certified full-stack developer with expertise in both frontend and backend technologies. My skills span across frameworks and languages, including React.js, Node.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Daisy UI, Hono.js, Drizzle ORM, and PostgreSQL. I hold a Bachelor's degree in Business Information Technology from Kirinyaga University and am passionate about creating scalable, user-centric applications.

📁 EXPERIENCE

Web Developer Intern - Zidio Development
(Sep 2024 - Nov 2024)

Collaborated with a diverse team to build web applications. Gained experience in teamwork and learned the importance of effective communication across different regions.

Software Developer - Teach2Give (Certified in 2023)

Awarded certification after three months of intensive training in technical and soft skills.

Course Representative - Kirinyaga University

Recognized as a leader and certified for managing Business Information Technology course group.

PROJECTS

Vehicle Rental Management System

Developed a scalable application for managing vehicle rentals, integrating frontend and backend technologies.

Health Chatbot with GPT-3 Integration

Built a comprehensive chatbot for mental and physical wellness, using GPT-3 for intelligent responses.

Maternal Health Monitoring System

Participated in a Kenya Red Cross competition, creating a monitoring system focused on maternal health.
